

ENGAGE

Increase your visibility while strengthening the vitality of biodynamics and all those who are transforming the heart of agriculture through this visionary, holistic, and practical approach to farming and gardening. The Biodynamic Association offers a variety of ways to engage with the dynamic and growing biodynamic community.

SUPPORT online and in-person education and resources

ENABLE access to biodynamic education through scholarships

COMMUNICATE with the diverse biodynamic community

BIODYNAMIC COMMUNITY

The Biodynamic Association (BDA) is a participatory, membership-based nonprofit organization working to nurture the US biodynamic movement as a diverse, collaborative, and thriving ecosystem. We strive to foster and share the promise of biodynamics as healing agriculture through education, research, and community building.

100,000 on website/year

9,000 on Instagram

YOUR IMPACT

For those seeking to reimagine agriculture, the Biodynamic Association provides a central pathway for exploring biodynamic education, information, and resources—for beginners and experienced practitioners alike.

We strive to meet people where they are—whether they'd like to browse online information, take a one-time webinar, commit to a longer course or conference, or learn in person at various events around the country. We value working collaboratively with inspiring farms, organizations, and initiatives to help showcase all that biodynamics has to offer through various educational and community-building opportunities. **Our programs evolve to meet evolving needs.**

Most importantly, our goal is for people to be inspired to **take action** and make a difference on the land they steward or in their community, whatever their scale.

Our partners are crucial to the success of these initiatives and the spread of biodynamic insights to a world sorely in need. Through a partnership connection with the Biodynamic Association, you can reach thousands in the biodynamic and regenerative agriculture communities to share more about your values and your good work.

Examples of our educational offerings

2026 Symposium: Bringing together farmers, thought leaders, and social entrepreneurs February 23-26 in Longmont, CO for a participatory symposium on “Agriculture, Community, Economics” to reimagine and create a new future for farming, in collaboration with the Agriculture Section North America

Biodynamic Foundations Training: Offering full immersion into the many facets of biodynamics for those seeking more in-depth training through a unique participatory, cohort-based program that provides solid grounding for aspiring and current farmers and land stewards

Online Biodynamic Conference: In 2024 and 2025 hundreds gathered together virtually, joining from around the US and the world to reimagine the future of agriculture through keynotes and participatory workshops

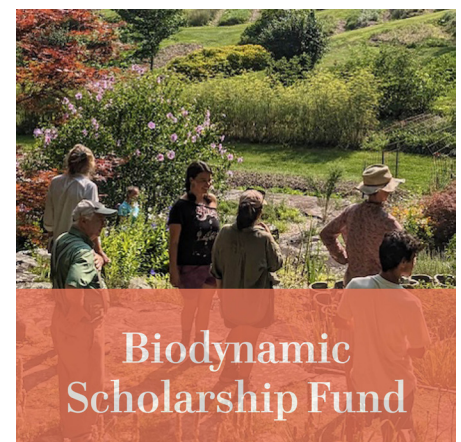

Online Courses, Webinars, & Forums: Providing opportunities for people to learn wherever they are and at their pace

Collaborative Education: Developing collaborative relationships with local and regional organizations, farms, and groups to organize in-person education and gatherings, helping to strengthen the impact of biodynamics throughout the US

Scholarships & Financial Support: Making biodynamic education accessible to all who are interested through the Biodynamic Scholarship Fund and affordable registration rates

Biodynamics Journal: Connecting, inspiring, and educating the widespread US biodynamic community for 85 years through substantive and practical content, diverse voices, farm features, and updates and wisdom from the community — *now in color!*

Website: Serving as a crucial entry point into biodynamics for many thousands each year, as well as a repository of information and community connections for the biodynamic community

BIODYNAMICS JOURNAL ADS

The *Biodynamics* journal is a member benefit of the Biodynamic Association that provides insights, wisdom, and practical hands-on information from fellow practitioners, enthusiasts, experts, and community members. In 2026, *Biodynamics* celebrates its 85th year in publication.

The journal is currently published twice per year—now in full color! Issues are available in winter and summer. Check out a preview from the most recent issue at biodynamics.com/journal-preview or through the QR code.

Ads may be purchased individually or included as part of a Partnership.

SEEDS OF COMMUNITY
AN INTERVIEW WITH MAC MEAD AND MEGAN DUNEY
Therfield Community Farm, Spring Valley, New York

By Karen Davis-Brown

(February 2024, from a recent interview with Mac Mead, Farm Manager, and Megan Duneay, Farm Manager, of Therfield Community Farm in Spring Valley, New York. It was a pleasure to share their story, especially their work with the Seeds of Community Farm, and the many ways they are contributing to the biodynamic movement in the United States.)

(Mac Mead and Megan Duneay are the founders of Therfield Community Farm, a biodynamic farm in Spring Valley, New York. They are currently growing a variety of crops, including vegetables, fruits, and grains. They are also raising livestock, including chickens, pigs, and cows. They are committed to sustainable agriculture and to supporting the local food system.)

THE ALLIANCE OF BIODYNAMIC ORGANIZATIONS

AS MENTIONED in the previous edition, a recent meeting of the Alliance of Biodynamic Organizations was held in the United States. The meeting was held in the United States. The meeting was held in the United States.

In their own right, this meeting was a landmark event for the biodynamic movement in the United States. It was a landmark event for the biodynamic movement in the United States. It was a landmark event for the biodynamic movement in the United States.

The meeting was held in the United States. The meeting was held in the United States. The meeting was held in the United States. The meeting was held in the United States.

Sowing Seeds of a Future Agriculture
ONLINE BIODYNAMIC CONFERENCE
November 21-23, 2025

After an inspiring 2024 Online Biodynamic Conference, we're looking forward to 2025. With the help of biodynamic practitioners and others, we'll be hosting a biodynamic conference that will be a true success.

biodynamics.com/conference

The gold standard of farming and food processing that leads the planet through conscientious agriculture.

A certified Biodynamic farm must proactively agree to a self-sustaining farm ecosystem. This includes generation of fertility on-site as much as possible, ensuring habitat exists for beneficial organisms, integration of livestock where possible, growing cover crops, and composting farm waste to be returned to the soil fertility cycle.

A VISIT TO MONTINORE ESTATE
THE OREGON BIODYNAMIC GROUP'S SPRING OPEN HOUSE

By Zachary Knobs

THERE WAS SOME TENSION as I sat in the back of a van, waiting for the Oregon Biodynamic Group's Spring Open House on Sunday, April 12. The van was full of people, and the atmosphere was one of anticipation. The van was full of people, and the atmosphere was one of anticipation.

The van was full of people, and the atmosphere was one of anticipation. The van was full of people, and the atmosphere was one of anticipation. The van was full of people, and the atmosphere was one of anticipation.

With the biodynamic community, we have a lot to learn. We have a lot to learn. We have a lot to learn. We have a lot to learn.

Find out more about the Oregon Biodynamic Group and their activities at biodynamics.com.

Zachary Knobs is the Director of the Biodynamic Association. He is a biodynamic practitioner and a member of the Biodynamic Association. He is a biodynamic practitioner and a member of the Biodynamic Association.
