BIODYNAMIC FARM INTERNSHIP

Here is an opportunity to be part of our 2015 farm-ing season. We run a 50 member year-round community supported farm/garden in Central Minnesota within the context of an intentional community based in Anthroposo-phy that focuses on living and working with adults with special needs. We ask that you have some farming and/or gardening experience, but it is more important that you are enthusiastic and energetic about sustainable agriculture and are open to working with people with special needs.

We are a working biodynamic farm on the Sauk River , where approximately 125 acres is managed under a grass based, cultivated 4-6 year rotation, with 70 acres in perma-nent pasture, 10 acres in restored native tall-grass prairie, and 300 acres of forest and wetlands. Incorporated into our diverse biodynamic system is a grass-fed beef opera-tion, a small grass based dairy, layers, hogs, a small apiary, and the many perennials and annuals that make it possible.

Projects for the upcoming summer include installation of a permaculture nursery, grazing diverse cover crop cocktail mixes and organic no-till experiments.

The internship runs from May through September, but will accommodate your school's schedule. A \$100 / month stipend will be given with free room and board in a house community, plus toiletries.

• Learning Opportunities In:

- ❁ Animal Husbandry (cows, pigs, poultry, bees)
- ❁ Small Scale Grass Based Dairy
- ❁ Small Grains Production
- ❁ Diverse Crop Rotations
- ❁ Compost Making
- ❁ MIG – Management Intensive Grazing
- ❁ Biodynamic Theory, Sprays, Compost preps
- ❁ Farm Machinery Safety, Operation & Repair
- ❁ Farm Scale Permaculture Techniques
- ❁ Holistic Management
- ❁ Community Living

• Requirements:

- ❁ Enthusiam
- ❁ Health insurance
- ❁ Pass a Background Check
- ❁ Agree to and Sign Service Policy

* Please remember you must be open and willing to work with people with special needs within the context of a licensed facility.

**We look forward to
hearing from you!**
