

# HONIG VINEYARD & WINERY

## Biodiversity to Optimize Production Field Day

Thursday, May 30, 2024 • 8:00am - 1:00pm • Rutherford, CA

Join Honig Vineyard & Winery and Wild Farm Alliance (WFA) out in the field! The event will feature a series of talks given by avian researchers and agricultural professionals, a beneficial habitat walk and a hedgerow demonstration planting.

### Topics & Speakers Include:

- *Songbird Benefits to Vineyards*, Danny Karp, UC Davis, and the rest of the Songbird Research Team at Cal Poly Humboldt and UC Davis
- *Attracting Barn Owls to Hunt in Vineyards*, Matt Johnson, Cal Poly Humboldt, and Breanna Martinico, UC Cooperative Extension
- *Habitat Diversification in North Coast Vineyards to Enhance Ecosystem Services*, Houston Wilson, UC Riverside
- *Plant Species that Optimize Arthropod Pest Biocontrol*, Stephen Pryor, WFA
- Learn about opportunities for assistance with habitat from Napa RCD
- Plus, enjoy a beneficial habitat walk and demonstration planting with Sam Earnshaw, Hedgerows Unlimited and Jeremy Sarrow, Napa County Flood Control & Water Conservation District

We have applied for and expect to offer 3 CE credits through the California Department of Pesticide Regulation for this event.

**REGISTER AT:** [www.wildfarmalliance.org/honig](http://www.wildfarmalliance.org/honig)

True cost for the field day is \$22 per person, which includes lunch.

Sliding scale payment options are available.

The Department of Pesticide Regulation (DPR) provided funding for this project but does not necessarily agree with any opinion expressed, nor endorse any commercial product or trade name mentioned.
