“Seek the truly practical material life, but seek it in such a way that it does not numb you to the spirit that works with in it.

Seek the spirit, but not out of spiritual lust or spiritual egoism; seek it rather because you wish to become selfless in the practical life of the material world.

Turn to the ancient principle: “Spirit never without matter, matter never without spirit!”

And say to yourselves: We will do everything material in the light of the spirit, and we will seek the light of the spirit in such a way that it kindles warmth in us for our practical deeds.”

- Rudolph Steiner
